

BIOGRAPHY

David Holderbach – President, HYVIA

Born in 1971 in Valence (France), David Holderbach graduated in aerospace engineering from Arizona State University. He started his career at Renault in 1996 as Thermal Comfort Manager before joining Auto Chassis International (ACI, Renault Group) in 2002 as a Project Engineer, then as Engineering Manager at ACI Japan. In 2006, he joined Nissan as Program Manager on the D platform, then returned to Renault Group in 2009 where he led the cross-functional team in charge of Product synergies. In 2010, David was appointed Segment Chief Product Specialist of the Global Access range. Three years later, he became America Program Director, within the Americas Region, based in Brazil. In September 2018, he returned to Europe as After Sales Europe Project Director and then became After-Sales Director of Renault Benelux where he completed the merger of After-Sales and Quality of Service.

Since June 3, 2021, David Holderbach is President of the HYVIA joint venture created between Renault Group and Plug Power, which leads the way towards a complete ecosystem of technologies and services for hydrogen mobility.
