GROUPE RENAULT AT CES LAS VEGAS

Groupe Renault to expose innovations with partners at CES LAS VEGAS

- **Preview of a "Car to Home" connectivity solution with Otodo**
- **Renault Master Z.E. Hydrogen exhibition and test drive with Faurecia**

With Otodo

Groupe Renault will preview a connectivity solution between the car and the house developed with Otodo. This solution allows automatic and secure communication between the vehicle and the connected objects of the house. It enables to control these objects directly from the car's dashboard.

To discover the service, visit OTODO booth 40245 - Tech West, Sands Expo.

With Faurecia

Groupe Renault will exhibit MASTER Z.E. Hydrogen on Faurecia's booth.

Renault MASTER Z.E. Hydrogen is a battery-powered electric vehicle, also equipped with a hydrogen system ("StackPack") developed by Symbio, the joint venture formed by Faurecia and Michelin. This technology extends the range of the zero-emission vehicle to 350 km (currently undergoing WLTP approval), three times more than the 100% electric battery-powered version.

To discover and/or test Renault Master Z.E. Hydrogen, visit Faurecia - LVCC - Tech East, Platinum Lot. PL3.

About Groupe Renault

Groupe Renault, which has manufactured cars since 1898, is an international group operating in 134 countries. In 2018, it sold nearly 3.9 million vehicles. Worldwide, the group employs more than 180,000 people and has 36 manufacturing sites and 12,700 points of sale. To address the major technological challenges of the future and continue to pursue its profitable growth strategy, Groupe Renault focuses on international expansion. To do this it builds on the synergies between its five brands (Renault, Dacia, Renault Samsung Motors, Alpine and LADA), the electric vehicle, and its unique alliance with Nissan and Mitsubishi Motors. With a 100% Renault owned team committed to the Formula 1 World Championship since 2016, the brand is involved in motorsports to boost innovation and name recognition.
