RENAULT DONATES A FIRE-PROOF DUSTER!

The Renault group is donating a specially converted Dacia Duster to Working Together*, a non-profit organization of volunteer firefighters, at the 118th national congress of French fire services, held from 22 to 24 September in Nantes. This car is aimed at Macedonian firemen.

The gift is part of a broader partnership between Renault and the French fire services. Every year the group donates dozens of vehicles that are used to train firefighters under real-life conditions to combat blazes more effectively and ensure their own safety.

Under its corporate philanthropy program, Renault supports Working Together and several other non-profits and non-governmental organizations that adhere to the priorities of its Corporate Social Responsibility policy: sustainable mobility, diversity, education and safety.

* More information on "[Working Together](#)" website.
